

## Online site to honour loved ones

Birmingham Mail MONDAY, MARCH 28, 2011

ON online memorial site to help West Midlands families and friends share celebrate the lives of loved ones has been launched by The Midlands Co-operative.

Remember Forever at [www.rememberedforever.co.uk](http://www.rememberedforever.co.uk) lets family and friends upload images and text as well as video and audio to post personal tributes and dedications.

Simon Fisher, group general manager, said: "We understand recently bereaved families and friends visiting our homepage will be experiencing a sense of great loss and upset.

"Remembered Forever has been launched to help ease the pain of bereavement. It enables families to create a safe and secure memorial page and because it is based online it can be accessed at anytime from anywhere in the world."

"We wanted to create a dedication service that brings people together to share memories of a loved one when perhaps they would not have had the opportunity to do so."
